

Are you looking for a challenging job in the field of Data Science? Do such keywords as AI, NLP, Machine Learning make your heart beat faster? Would you like to be at the interface between business and research and support and advise customers on our services and products?

If so, we look forward to getting to know you!

Data Science Business Manager - AI (f/m/d)

(38.5 h/w) in Graz

Your tasks:

- Working at the interface between business and research with a focus on our projects in the Knowledge Discovery department
- Existing customer care and building a new customer network
- Initial contact with clients through the participation and organisation of workshops, networking events, etc.
- Strong interface to our experts in other departments
- Advising clients on future and new project fields
- Support of new customer projects from the initial contact to the signing of the offer and project coordination
- Strong cooperation with the Research Area Managers to generate new content-related project fields and project opportunities
- Supporting the transfer of scientific results to the economy
- Recognition of market potentials and transfer of economic concerns into scientific project work (e.g., master theses, PHD theses)

Your qualifications:

- University degree (or equivalent experience) in computer science, software development, telematics, mathematics, statistics or a comparable scientific/technical study
- Several years of experience in customer contact and technical project management
- Knowledge of project management methods
- Management experience and experience in an international research environment would be of advantage
- Determination, independence and excellent communication skills
- Service orientation and solution competence
- Good knowledge of English and German

We offer:

- Cutting-edge projects in cooperation with national and international key players
- Versatile opportunities for professional and personal development
- Flexible working hours (flexitime, family-friendly, home office)
- Dynamic, creative and multicultural team
- Informal and stimulating working atmosphere

The gross salary for this full-time job (38,5 h/w) is 3.565,- EUR per month (14 times per year), plus a performance bonus. Higher compensation is possible depending on the experience and qualifications.

We look forward to your application at career@know-center.at.
