i-Know

15th International Conference on Knowledge Technologies and Data-Driven-Business

i-KNOW 2015 aims at advancing research at the intersection of disciplines such as Knowledge Discovery, Semantics, Information Visualization, Visual Analytics, Social (Semantic) and Ubiquitous Computing. The goal of integrating these approaches is to create cognitive computing systems that will enable humans to utilize massive amounts of data. Since 2001, i-KNOW has successfully brought together leading researchers and developers from these fields and attracted over 500 international attendees every year.

The international conference is held annually in Graz, Austria and organized by the Know-Center and Graz University of Technology.

October 21st - 22nd 2015
Messe Congress, 8010 Graz
www.i-know.tugraz.at

Keynote Speakers

Luciano Floridi | University of Oxford
Pablo N. Mendes | IBM – Watson Group
Klaus Tochtermann | ZBW, Kiel University

1st Computational Life Science Day

October 21st, Organized by the Faculty of Computer Science and Biomedical Engineering, Graz University of Technology.
